EDUCATION

2023 – Present **B.Tech in CSE (AI & ML)**, VIT Bhopal University

GPA: 8.84

WORK EXPERIENCE

Machine Learning & AI Intern, Tamizhan Skills — Remote

Jun 2025 – Jul 2025

- Completed a project-based internship under the RISE Program focused on Machine Learning and AI applications.
- Worked on data preprocessing, feature engineering, model development, and evaluation.
- Applied Scikit-Learn and TensorFlow to solve real-world predictive problems.

AICTE Edunet Foundation AI Intern — Remote

Jun 2025 – Jul 2025

- Selected for the Shell-Edunet Skills4Future AI Internship program.
- Worked on AI-driven solutions involving data visualization, preprocessing, model building, and optimization.
- Gained hands-on experience through industry mentorship and project-based learning.

PROJECTS

AgriTech AI Platform

ML Engineer & Full Stack Developer [\[Link\]](#) 2025

- Developed an AI-powered agricultural platform providing crop recommendations and intelligent farming assistance.
- Built machine learning models using TensorFlow and Scikit-Learn for prediction and classification tasks.
- Designed responsive web interfaces and integrated Flask backend APIs for real-time inference.
- Technologies: Python, TensorFlow, Scikit-Learn, Flask, HTML, CSS, JavaScript.

AI Money Mentor

ML & Backend Developer [\[Link\]](#) 2025

- Developed an intelligent finance platform with stock prediction, gold and silver trend analysis, and investment calculators.
- Implemented machine learning models for financial forecasting and integrated real-time APIs.
- Built backend services using Python and Flask for dynamic predictions.
- Technologies: Python, Flask, TensorFlow, Pandas, NumPy, Matplotlib.

ECG Arrhythmia Detection System

Deep Learning Developer 2025

- Developed deep learning models for ECG signal classification using the MIT-BIH Arrhythmia dataset.
- Implemented CNN and LSTM architectures to classify cardiac abnormalities.
- Performed preprocessing, feature extraction, and evaluation using TensorFlow and Keras.
- Technologies: TensorFlow, Keras, NumPy, Pandas.

SKILLS

Programming Languages	Python, C++, JavaScript, Golang
Machine Learning	Scikit-Learn, TensorFlow, Keras, Pandas, NumPy, Matplotlib, Seaborn
Backend Development	Flask, Express.js, REST APIs
Databases	MySQL, Firebase
Tools	Git, GitHub, VS Code, Vercel

OPEN SOURCE & LEADERSHIP

- **Top 3 Project Admin** at **Social Winter of Code 2026 (SWoC'26)**.
- **State Lead** at **Open Source Connect Global 2026 (OSCG'26)**.
- **Top 30 Project Admin** at **GirlScript Summer of Code 2025 (GSSoC'25)**.
- **Mentor** at **OSC AI Build 1.0 Hackathon**.
- Active Open Source Contributor in **GSSoC'25**, **GSSoC'26**, **SSoC'26**, **ECWoC'26**, and **OSCG'26**.

ACHIEVEMENTS

- **2nd Runner-Up** in **HackLoop** and **DataVerse**, national-level hackathons among 500+ participating teams.
- **Event Head** of **INNOVATEX 2025** (Ideathon & Hackathon) at VIT Bhopal University, successfully leading the planning and execution of a university-wide innovation event with 200+ participants and multiple sponsors.
- **Team Lead** for the **Hydroponics Kit with IoT Integration** project (Feb 2025), developing a smart hydroponic system with IoT-based real-time monitoring to optimize plant growth while minimizing resource consumption.
- Built and deployed **20+ AI, Machine Learning, and Full-Stack projects** using Python, TensorFlow, Scikit-Learn, Flask, and modern web technologies.
- Solved **300+ coding problems** across competitive programming platforms and continuously practice Data Structures and Algorithms.
